

Service/Maintenance & Adjustments on Manual Chairs

Overview:

This one day course will give the participants the opportunity to have an understanding of the requirements on how to service and maintain Invacare's manual wheelchairs. It will also allow the participant to become more confident in adjusting and setting up the Invacare manual wheelchairs. This course will include lots of hands-on and practical sessions on the manual chairs

Course Content:

- Tools required to carry out servicing and maintenance of Invacare's manual wheelchairs
- Analysing the key components of the manual chair
- Removing and re-fitting key components of the manual wheelchair
- Adjusting the manual wheelchair
 - Seat to ground height
 - Adjusting the centre of gravity
 - Seat width and depth adjustments
 - Checking wheel alignment
 - Replacing components on a manual wheelchair
 - Checking and adjusting castor pot alignment
 - Warranty and returns procedure

Workshop session

- This course will incorporate plenty of practical sessions

Who will benefit from the course?
