

Power Chair Controls Set-up & Operation

Overview:

This one day course will give participants an excellent understanding on how the ACS/DX and P & G control systems are set-up and used. Participants will go away with a good understanding of the use of the Hand Held Programmers (HHP) and PC Wizard, and they will also be able to download and edit the Invacare factory standard programmes.

Course Content:

- Overview of the Dynamic ACS/DX and P & G systems
- Understand the set-up and operation of Master Remotes
- Understand the set-up and operation of Secondary Remotes
- Have the chance to adjust the Speed, Acceleration and Deceleration settings
- Learn how to set-up and operate the DX – Proximity Head Control
- Use environment controls via the ACS/DX system

Workshop session

- Delegates will have the chance to set-up and trial all of the above topics

Who will benefit from the course?

- Technicians
- Rehab Engineers
- Invacare Dealers
- Occupational Therapists

Course level: Basic / Intermediate / Advanced

Price: Free of charge
